EGD-LUXUS

EXCLUSIVE INTERIOR DOORS

INTERIOR DOOR FEATURES

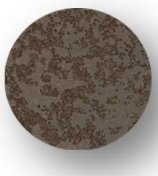

- Exclusive, individual design, door leaf thickness 51 mm;
- Aluminum frame and sash frame, painted in any color according to the RAL palette;
- Aluminum profiles along the entire perimeter of the door leaf, i.e. a frame that maintains the geometry;
- Aluminum profiles are connected with special clamped corner pieces, additionally filled with two-component adhesive, which guarantees one hundred percent strength and stability;
- Concealed hinges with 3D adjustment, extremely high quality, 2 hinges can support a door weighing 80 kg;
- Magnetic gaskets in both the frame and the door leaf ensure quiet and smooth door opening;
- Lock with magnetic lock;
- Variety of finishes at the client's choice. One side of the door can have one finish, and the other side another;
- The aluminum edge of the sash profile protects the sash finishing edge from mechanical damage;
- Doors can be equipped with integrated automatic thresholds, door brakes and closers;
- Maximum door height – 350 cm

The doors have undergone certified door opening tests - 200,000 opening cycles have been passed. The doors are certified in accredited laboratories and doors of the same design can be:

- **Acoustic**
- **Smoke-resistant**
- **Fire resistant**
